

Desa Punggul Village Report 2026

If the population of a dusun exceeds 1000 residents, the village must provide additional water supply.

When household income is below 2000000 IDR, the family needs financial support from the village fund.

If water consumption exceeds 300 liters per day, the village reports a leak.

The north district lacks clean water and electricity.

Desa Punggul has a total population of 3401 inhabitants.
